SUMMARY

I am a young and energetic professional with six years of experience working on various projects. Throughout my career, I have demonstrated excellent customer service skills by continuously engaging with customers and building strong relationships. My ability to understand and address customer needs has resulted in high levels of customer satisfaction. Additionally, I possess exceptional typing speed, enabling me to efficiently handle data entry tasks and create documents accurately.

I have acquired skills in different programming languages, which have allowed me to contribute effectively to the development of software solutions. I actively engage in analyzing project requirements, designing and implementing solutions, and troubleshooting technical issues as needed. My adaptability is one of my strengths, as I am able to quickly adapt to changing project requirements and seamlessly integrate into new teams and tasks.

Strong problem-solving abilities, along with strong analytical skills, have enabled me to identify and resolve issues effectively. My communication skills, both verbal and written, have facilitated clear and concise communication with clients, team members, and stakeholders.

In terms of education, I have pursued relevant courses and certifications in customer service and programming to enhance my skills.

With my dedication, adaptability, and commitment to excellence, I am confident in my ability to make a positive impact in any professional setting. I am eager to leverage my skills and experiences to contribute to the success and growth of future projects.

WORK EXPERIENCE

FINANCE DEVELOPER
LOBLAWS
JANUARY 2022 - JULY 2022

- Executed timely payments of invoices through SAP and Lawson to ensure vendors were paid prior to the period ending.
- Responded to customer and vendor inquiries via Service Now and E-mail while meeting Service Level Agreement (5 days), thereby guaranteeing payment demands were promptly addressed.
- Streamlined team tasks utilizing Python Language and automation, resulting in process optimization and enhanced accuracy.
- Conducted payment exception analysis, providing necessary corrections to align with both vendor terms and company policies.
- Debugged and fixed problems with the automation

- Managed and developed the project for different softwares

FREE LANCE DEVELOPER
FREE LANCER
JULY 2017 - PRESENT

Throughout my freelance career, I have successfully completed a diverse range of projects for clients across various industries. These projects have included developing custom web applications, designing responsive websites, creating mobile applications, and integrating APIs.

I am dedicated to staying updated with the latest industry trends and technologies, continuously expanding my skill set to provide cutting-edge solutions to clients. My passion for programming and attention to detail ensure that every project I undertake is of the highest quality.

- Implemented web interfaces using HTML, CSS, and JavaScript.
- Created different games with different languages and engines.
- Developed solutions for companies.

TRAINEE
KEZPO
AUGUST 2018 - JULY 2021

While I was in the early stages of my career, I have completed various programming projects during my education and personal learning journey. These projects have provided hands-on experience in developing simple applications, working with databases, and implementing basic algorithms.

I am eager to further enhance my skills and expand my knowledge by working closely with experienced developers and engaging in real-world projects. I am confident that my passion for coding, dedication to continuous learning, and ability to work well in a team setting will contribute positively to the success of any development team.
